Inspiring Glass Finishes

3M Architectural Markets' glass finishes are technologically advanced products with unique designs, in-line with current market trends. Stylish and functional, the finishes are designed to last.

Durable.

Install Easily.

Low Maintenance.

Decorating with Glass

Glass is an essential element in the design of new buildings. Synonymous with brightness and elegance, glass windows let in natural light providing visual comfort. This improves employees' well-being and productivity by connecting them to the external environment.

Privacy Protection. Aesthetics. Communication.

Whatever is required, 3M Architectural Markets offers interior designers new opportunities to express themselves through the broadest range of creative options for glass surfaces.

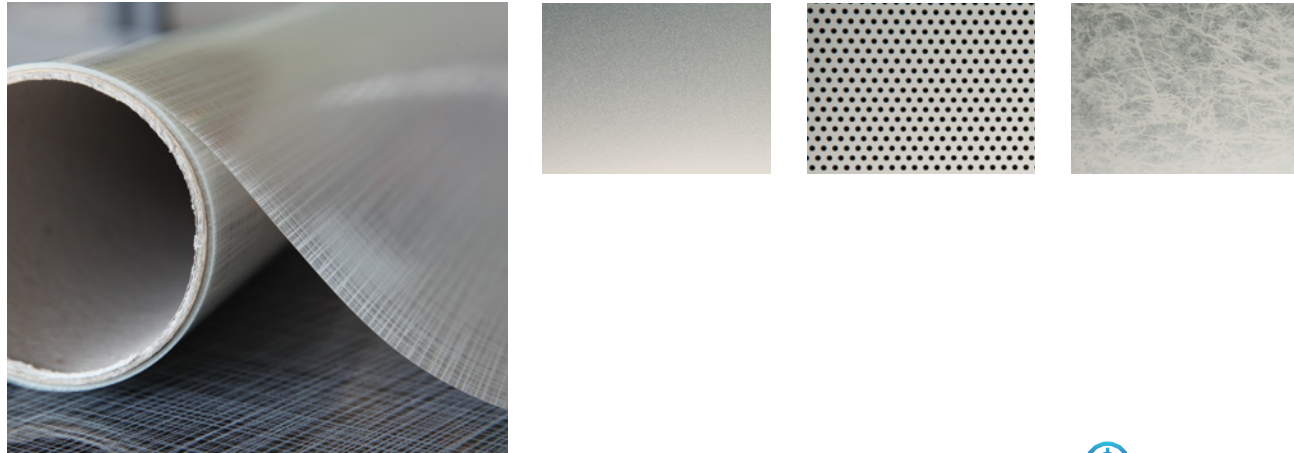

Summary

Our Offerings	4

Stripes	11
Horizontal Borders	13
Prisms & Dots	15
Fabrics & Japanese Papers	17
Frosted & Matte	19
3M™ CRYSTAL Glass Finishes	21
DICHROIC	23

Customized Privacy

Aesthetically stunning finishes by 3M transform plain glass allowing you to capture the look of cut or textured glass at a fraction of the cost.

3M's range of options include intriguing transparencies, stimulating shades and the timeless etched or frosted effect for all types of glazed surfaces, indoor and outdoor.

Budget-friendly

You get the beauty, translucency and privacy of etched, cut, sandblasted or textured decorative glass at a fraction of the price. Applying FASARA™ and CRYSTAL GLASS FINISHES directly to glass saves time and money.

Refresh and Renew

FASARA™ and CRYSTAL GLASS FINISHES can be used to transform existing surfaces, eliminating waste. When the space is ready for a new look, remove the film and replace it with a different pattern or texture.

Flexible

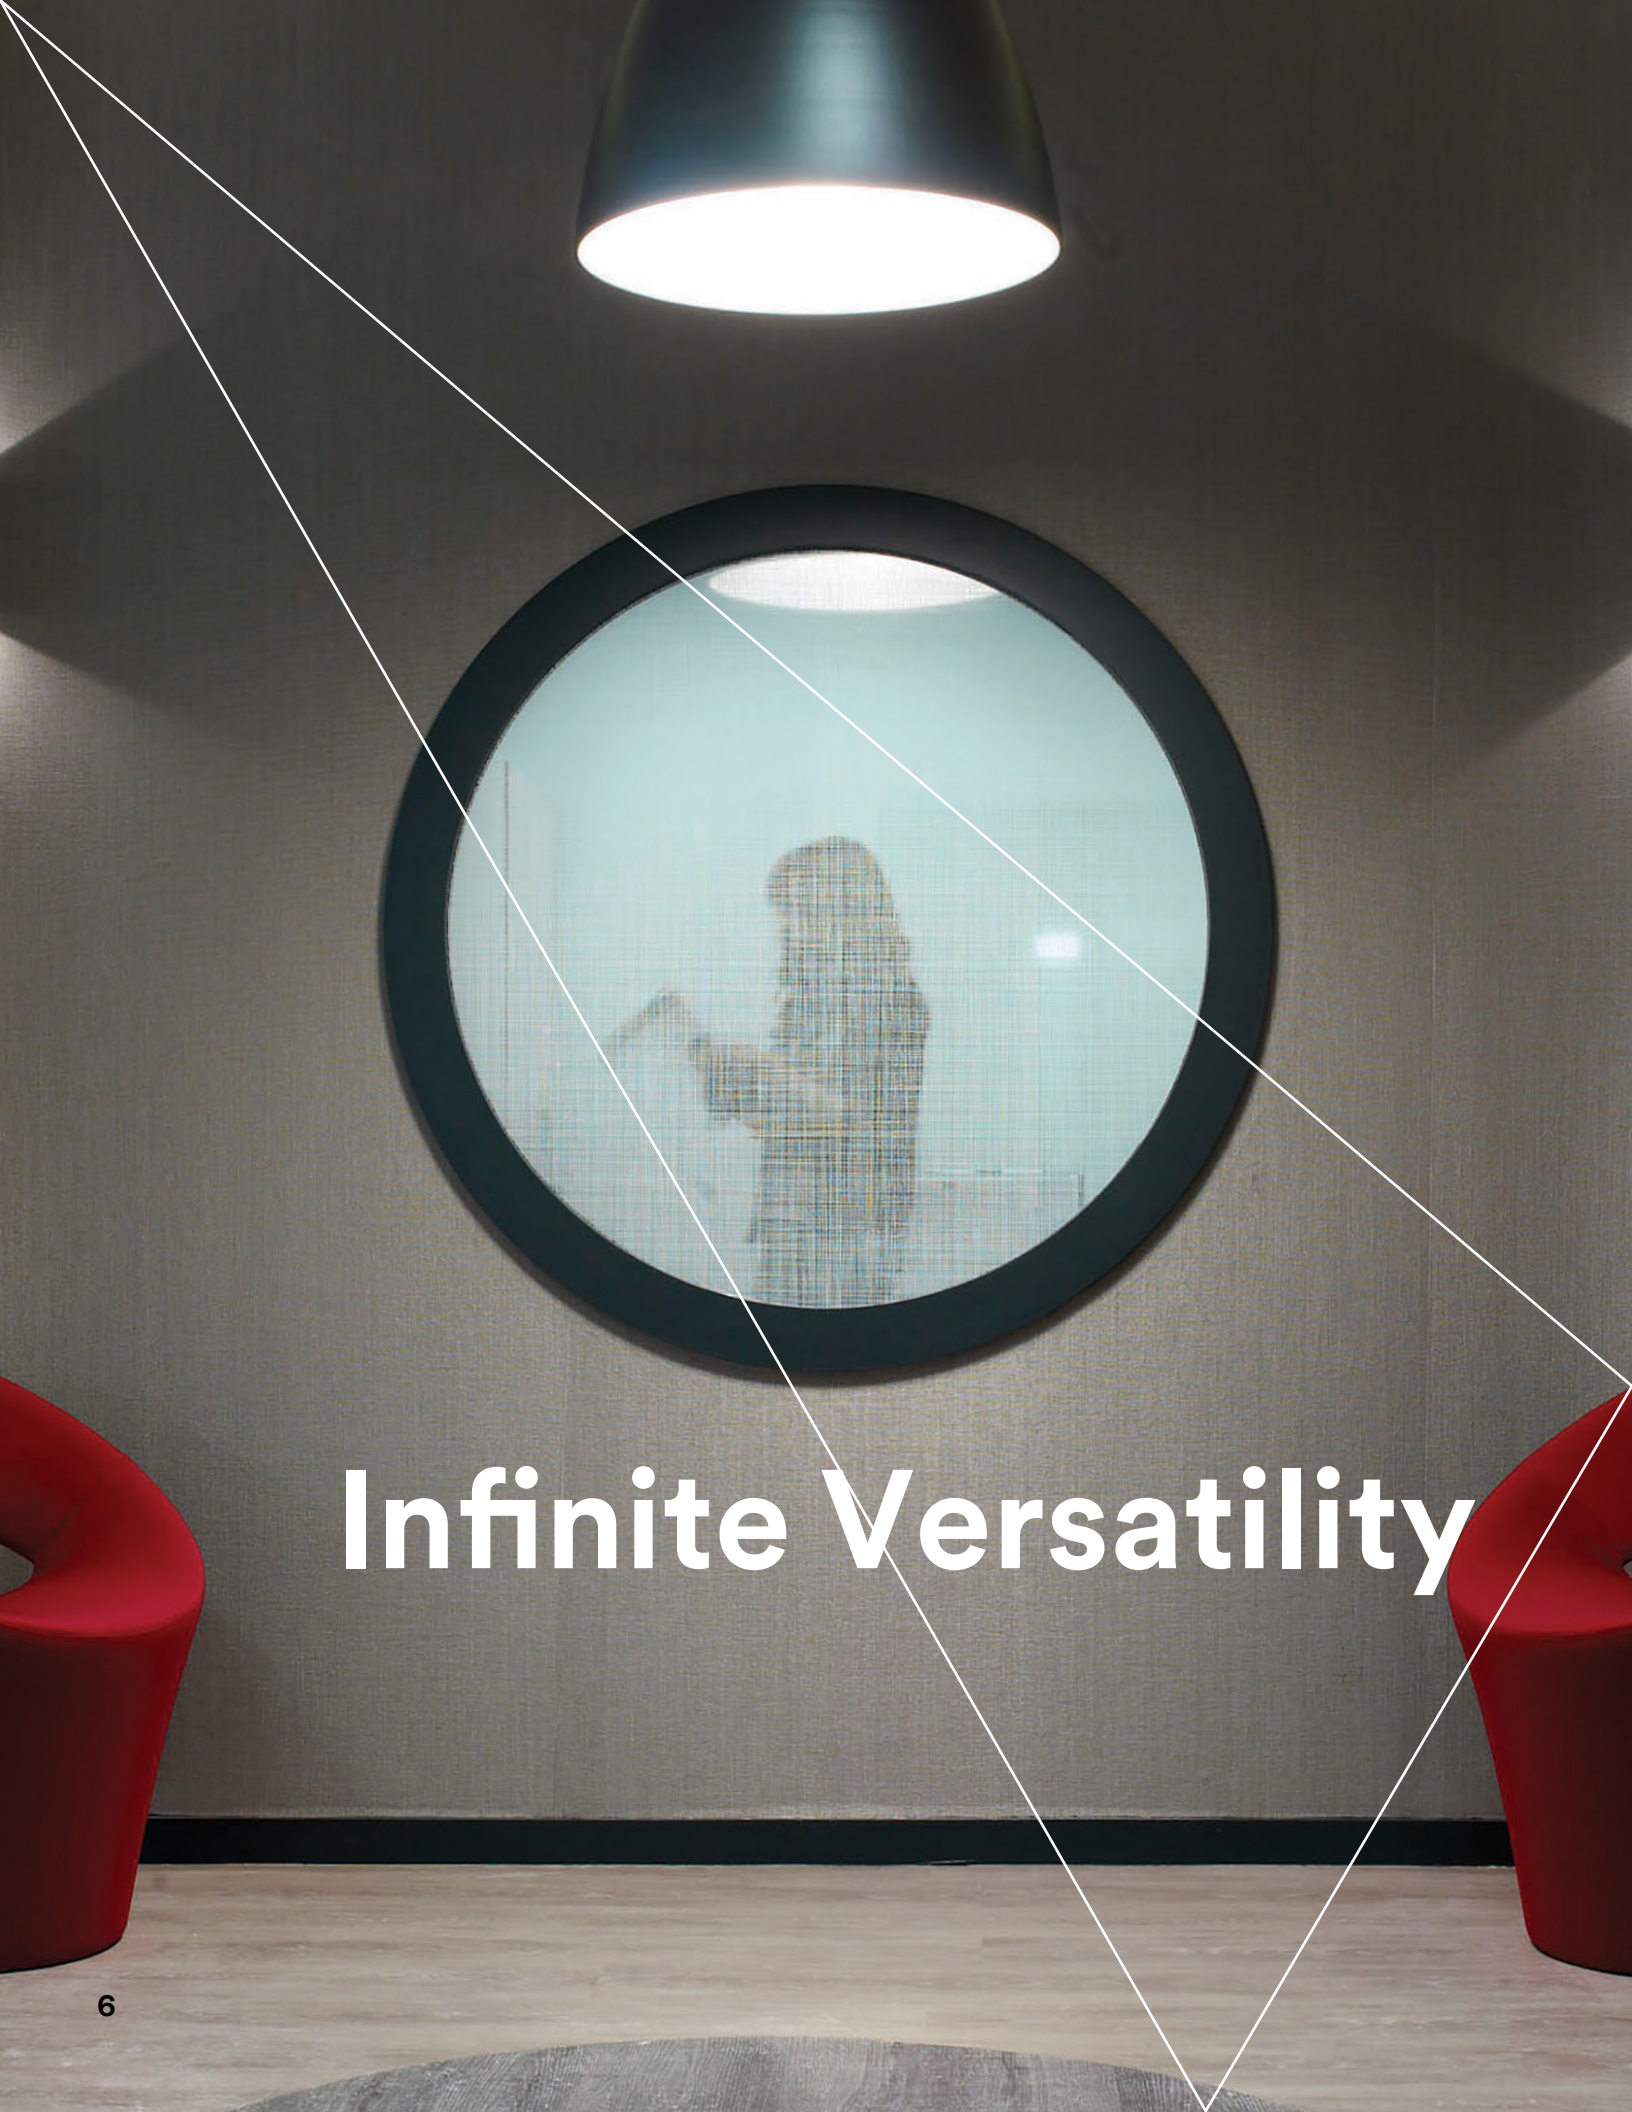

The material itself is amazingly flexible and easy to apply. The film is perfect for indoor or outdoor applications and works on flat or simple curved surfaces.

Limitless areas of use

- Offices, banks and agencies
- Shopping centres, shop windows and showrooms
- Hotels, restaurants, bars and other public places
- Wellness and spa centres
- Customize glass doors, wardrobes, shower stalls and home mirrors
- Renovate common spaces and thoroughfares: halls, stairwells, windows and skylights

Infinite Versatility

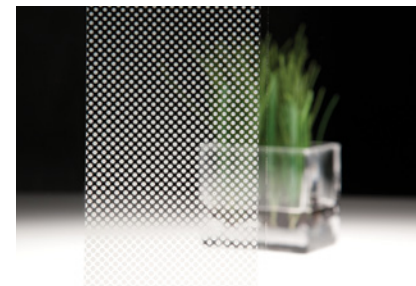

3M™ FASARA™ Glass Finishes

The perfect blend of optical beauty and affordability, 3M™ FASARA™ Glass Finishes offer a simple solution for creating the illusion of etched, treated or textured glass. Combining visual complexity with subtle textures, FASARA™ FILMS give depth to glass and provide customized privacy while preserving natural light. Layer FASARA™ FILMS to create a custom design for a dramatic effect.

Shades of Style

Gradation

3M™ CRYSTAL Glass Finishes

CRYSTAL glass finishes use 3M technology to create the illusion of etched and sandblasted glass in both dusted and frosted designs. For customization and personalization, the films can be digitally printed and electronically cut to reproduce graphics or lettering. These transformative, cost-effective films offer limitless creativity.

3M™ DICHROIC Glass Finishes

DICHROIC films combine beauty, light and colour with extraordinary 3M technology to create a unique and affordable solution for interior glass surfaces. Mimicking the brilliant iridescent look of butterfly wings, 3M DICHROIC films 'play' with the light depending on your viewing angle by reflecting and bouncing light to reveal a natural colour spectrum.
